Rescue Stretcher Kit - Technical Sales Sheet: 72

Product Code: 40240   **Standards: CE 93/42/EEC CLASS I**

Product Features

- Robust compact and lightweight design

- Flexible and smooth material allows a casualty to be easily slid on or off.

- Stretcher can easily slid over surfaces.

- Webbing passes through the stretcher allowing the stretcher to freely slide without damaging the webbing.

- Multiple strong handles allow multiple rescue workers to manoeuvre the stretcher at the same time.

- Stretcher can be hauled horizontally and vertically

- Lifting strops allow the stretcher to mould around the casualty.

- RFID options available

Product Specification

- User capacity: 400kg

- Kit weight: 10kg

- Single user
